

UPDATE
FUNDING OPPORTUNITY NOTICE (FON)
Joint Fire Science Program (JFSP)
September 7, 2017

The intent of this notice is to provide an update to investigators who are interested in potential research opportunities from JFSP.

Investigators should be aware that the final decision regarding FY18 topic selection has been delayed and will not be made until fall 2017. One or more topics that have been described in the July 2017 Notice of Intent (NOI) found at: <https://www.grants.gov/web/grants/search-grants.html> may be dropped or included in the final notice, and the specific focus of individual topics may be altered. Investigators should recognize this uncertainty and not invest substantial time or resources working on proposals until the FONs and their associated topics are formally posted.

Investigators should not contact the JFSP Office or Governing Board members seeking further information on these topics. No further information will be released until the FONs are formally posted.

Those formal FON postings will be available on <https://www.firescience.gov> and investigators can subscribe to our weekly Friday Flash eNews where announcements will be made later this fall.
